### Oklahoma Middy Wins.

ANNAPOLIS, May 25.—The gold watch offered annually by the Rev. Dr. Henry Van Dyke to the midshipman writing the best essay on a naval or patriotic subject, has been awarded to Midshipman Howard N. Kenyon of Oklahoma, a member of the graduation class. He wrote on the theme, "Can the Bluejacket Follow in the Footsteps of His Superior?"

## BORAH'S CALL FOR ARMS TRUCE MAY BLOCK NAVY BILL

Senate Plunges Into Huge Appropriations Measure in Effort to Rush It Through.

By J. BART CAMPBELL.

The Senate tackled the \$500,000,000 "bigger American navy" appropriation bill today in the hope of disposing of it finally by night-fall.

Fear was entertained by Republican leaders backing the measure that fresh delay would probably be encountered when the amendment sponsored by Senator Borah, Republican of Idaho, which would direct and authorize the President to call a disarmament conference between the United States, Great Britain, and Japan, is reached.

Reported withdrawal of the President's objection to the Borah proposal is believed to have paved the way for its adoption by a substantial majority of both Republican and Democratic Senators, but it is anticipated that when it is called up for a vote it will be productive of more speech-making on the international situation.

### YAP INJECTED.

Senator McCormick, Republican of Illinois, a member of the Senate Foreign Relations Committee, and other Senators have indicated they will probably use the Borah amendment as a vehicle for a general discussion of the Japanese question, with pointed references to the Yap issue, Shantung, the proposed renewal next month of the British-Japanese alliance, and the division of former German island possessions in the Pacific between Great Britain and Japan.

Senator La Follette, Republican of Wisconsin, an "irreconcilable" opponent of the \$100,000,000 increased naval appropriations recommended by the committee, has offered a series of amendments which may consume considerable time before the bill itself is finally voted upon.

Dr. Simon P. W. Drew, president of the White Cross Free Labor Bureau of America, and pastor of the National Cosmopolitan Baptist Church, who has been absent for nearly three years from Washington, will conduct revival meetings next Sunday at 11 a. m. and 8 p. m.

Dr. Drew announced today that fifty colored women have applied for domestic work and that 100 colored women have applied for domestic work and that 100 colored men and boys want work cleaning, and washing windows and other incidental positions.

"WEAR 'EM ANY STYLE," SAYS MCKEEPORT CHIEF  
PITTSBURGH, May 25.—McKeesport girls should worry—that is, McKeesport girls who have pretty figures and don't care who knows it. The police of that city have been instructed not to interfere with feminine bathers who wear one-piece bathing suits.

"So long as they are not of white or flesh-colored material, one-piece bathing suits for women will be allowed in McKeesport," announced Councilman Charles H. Rowe, superintendent of park and playgrounds.

MISS ROSE ROTHENBURG, who heads campaign for eugenics law in New York. She will put her suggestions before the legislature at its next meeting.

## P. O. DEPT. OPENS RADIO CLASSES IN 'AGGIE' COLLEGES

Farmers Study Wireless When U. S. Begins Sending Daily Market Reports.

Opening of radio classes in a number of the leading agricultural colleges of the country, as a result of the nationwide radio marketgram service by the Postoffice Department, was announced today by department officials.

Student farmers are intensely interested in the service, which puts the closing market prices of all the large markets of the nation in their hands within a few hours.

This service, which is maintained by the Bureau of Markets, Department of Agriculture, and sent out from the fifteen stations comprising the Postoffice Department Radio System, is already proving of great value to farmers in all parts of the country, especially to those in the more isolated portions of the Middle West.

Another interesting feature of the new service is the decided increase in the number of amateur wireless stations being erected and operated by amateurs. A large increase in the sales of radio equipment is being reported from all States included in the Postoffice radio zone.

As the success of the postal radio marketgram service, under present conditions, depends largely on the amount of dissemination by amateur operators, working under Government license, every effort is being made to stimulate interest along this line.

CLERGYMAN WANTS U. S. TO MANUFACTURE LIQUOR

SALT LAKE CITY, May 25.—The Rev. Elmer L. Goshen, a Congregational minister who edited the Salt Lake Telegram, today in an editorial condemned newspapers and prohibition. He declared that the "average newspaper is concerned with the mere making of money and that to make profit will keep still on every great question and fill all its columns with slush."

He contended that the prohibition law had failed to prohibit and that it was producing "the finest crop of youthful brewers and distillers that the world has ever known."

He advocated that the United States Government manufacture liquor and dispense it.

BAY STATE ANTI-RUM LAW IS HELD INVALID

BOSTON, May 25.—Attorney General Allen ruled yesterday that a bill providing for a prohibition enforcement statute in this State, substantially like the Volstead act, was unconstitutional because of provisions under which the State law would be changed automatically whenever Congress changed the Federal law as to the legal alcoholic content of liquor.

These provisions, he held, constituted a delegation to Congress by the Legislature of its exclusive right to pass laws for Massachusetts.

GIRL TAKES POISON IN FEAR OF EXAM FAILURE

NEW YORK, May 25.—Fear that she would not be able to pass her examinations and would be unable to graduate next month led Helen Greenwald, thirteen years old, of 236 West One Hundred and Thirtieth street, a student in the Junior High School in Public School 170, One Hundred and Eleventh street and Lenox avenue, to attempt to end her life yesterday by drinking iodine, according to a statement she is said to have made to the police.

The sister rushed Helen to the home of Dr. L. L. Goodfriend, 1848 Seventh avenue, and the latter, after giving the girl first aid, had her taken to Harlem Hospital. She will recover.

POLICE CHIEF, ACCUSED AS BANDIT, OUT ON BAIL

SCRANTON, Pa., May 25.—Frank J. O'Boyle, former chief of the Carbonate police department, who was arrested two days ago on suspicion of being a "bank robber," notorious Philadelphia robber, who escaped from Federal prison at Leavenworth in 1909, was released from jail here under \$2,500 bail.

O'Boyle, who has been working at a laundry since he severed his connection with the Carbonate police force a little more than a year ago, emphatically denied that he ever served in prison.

Adopts Daylight Saving.

HARRISBURG, Pa., May 25.—Daylight saving will be observed in this city between June 5 and October 30, in accordance with a proclamation issued by Mayor Hovatter following the action of the city council in voting the summer-time ordinance.

## WOMAN SHOTS SELF IN BREAST ON WAY TO JAIL

Arrested for Inciting Unrest, She Fires Revolver as Policeman Sits Beside Her.

NEW YORK, May 25.—The crack of a pistol attracted hundreds in Herald square shortly before 8 p. m. yesterday to a closed automobile moving briskly southward. A feather of smoke curled from a window in the tonneau. The man at the wheel stepped on his accelerator and the machine darted out of the square.

At the French Hospital, Mrs. Julia Warshoff, of 522 West One Hundred and Fifty-first street, was taken from the machine. Bound for the East Thirtieth street station, with a policeman sitting at her side, she had snatched a small automatic pistol from her handbag and sent a bullet into her breast. Her condition is critical.

Mrs. Warshoff had been arrested on complaint of Charles Hirschberg, of the American Optical Company, 1328 Broadway. She had been employed by him until three months ago. Following her dismissal she was arrested on a charge of disorderly conduct.

## "Hosette" Girls Show Bare Knees on Boardwalk

ATLANTIC CITY, May 25.—"Hosettes" with bare legs above gave the Boardwalk a warm weather thrill yesterday. Shapely maids of the debutante age and some of the young matrons whose husbands happened to be spending their week-ends elsewhere discovered the new fad and dimpled knees.

The first appearance of the bare calves was about 11 o'clock when a bevy of pretty young things, seated in roller chairs, gave the early promenaders a shock. By noon the nude limbs were on view by the dozens above short socks that extended about three inches above the ankles.

Hirschberg said she had tried to incite trouble among his employees and had annoyed him personally over the telephone.

When Hirschberg left his office late yesterday afternoon he saw the woman waiting near the entrance to the building. He called Policeman Sallon, who started for the police station with Mrs. Warshoff in an automobile owned and driven by one of Hirschberg's employees.

## SKYSCRAPER WITH CATHEDRAL IN IT, METHODISTS' PLAN

\$3,500,000 Edifice of 21 Stories in Chicago Loop to Mark Centenary.

CHICAGO, May 25.—As a monument to the centenary of their denomination's mission work, the Methodist church will erect in the heart of the downtown business section a \$3,500,000 cathedral like no other in the world.

It will be a skyscraper, twenty-one stories high, with offices occupying the space not given to a huge auditorium on the ground floor and church headquarters above. Rising from the roof of the 260-foot building will be a spire 140 feet high.

Great chimneys in the spire, large enough to dominate the roar of loop traffic, will summon worshippers to the cathedral. The cathedral will be pure French Gothic in style and American in general structure, combining the grace of medieval churches with the utility of the modern office building.

## BURGLAR WARNS OWNER HE'S ROBBING HOUSE

POTTSVILLE, Pa., May 25.—The most gentlemanly burglar ever known here is in custody. He was so polite the police became convinced he is of unsound mind. The burglar, who is Peter Greene, Philadelphia, in burglarizing the home of William De Long last night, knocked at an inner door and informed the owner of his intention. De Long hastily got up and found Greene leaving the house, carrying his shoe in his hand. Greene's sanity will be inquired into.

## PASTOR URGES CHILDREN STAY ON FARM FOR YEAR

BOSTON, May 25.—Every American boy and girl should spend a year on the farm as part of their education, Prof. Dallas Lore Sharpe, of Boston University, said in an address today at a joint meeting of Unitarian and Congregational ministers.

Children today see too little of nature and too much of the movies, stores and clubs, he said, pointing to Lincoln as an example of what "natural" education would do for a man.

## Vacation Starts June 22.

Public school children will embark on their summer vacations on Wednesday, June 22, it was announced today by the Board of Education. Parochial and other private schools will close about June 15. Public schools will reopen again on September 19.
